

Class 5 Home Learning

There are 2 areas of homework to complete each week:

1. **Reading:** You should read for 20 minutes on at least 4 days each week. The expectation is that you will record these 4 days, when you have read at home, in your Reading Record and hand this in each Monday. Your Reading Record will be returned back to you on the same day. When you read, think about what you have read, collect examples of rich vocabulary and discuss your book with an adult regularly. Vary the authors, genres and text types you select and strive to read from the Reading Rocket selection often.
Also, remember to keep your activity passport, which is in the back of your reading record, up to date.
2. You need to choose either an **English or a maths activity** from the lists below to complete in your homework book and hand this in on Monday. Try to choose from each section over the term. Remember to present your English work neatly and with joined handwriting. Books will be returned to you by Thursday.
- 3.

There is one optional activity to complete each week (this is very helpful if you cannot yet recall all of your times tables facts quickly):

1. **Maths:** Log on to **Times Tables Rock Stars** at home 2 - 3 times each week to practise your tables.

Trying your very best, being organised with homework and meeting these expectations will result in house points, stickers or certificates and, of course, you will be learning, practising key skills and becoming an independent learner. If the homework expectations are not fully complete, the consequence will be to complete the missing work during a break or lunch time.

English Activities:

- To support your learning in Science, complete a reading comprehension on the Sun. Ask your teacher for a sheet.
- To support your learning in Science, complete a reading comprehension on the Moon. Ask your teacher for a sheet.
- Complete the modal verb sheet, identifying certain degrees of certainty. Ask your teacher for the sheet and pick 1, 2 or 3 star.
- Write a persuasive piece of writing about a place that you may have visited during the summer holidays. We might want to visit this place after reading your exciting account. Try and be as persuasive as possible. Write this account in no more than 100 words!

Maths Activities:

- 13,461 231,567 29,887 14,523 117,926
Round these numbers to the nearest 10, nearest 1,000 and the nearest 10,000.
- Design your own Roman numeral game to help other children learn their Roman numerals to 1000. I look forward to playing these in class!
- Ask your teacher for a worksheet on identifying the value of digits in decimal numbers up to 2 decimal places.
- Ask your teacher for a worksheet on adding and subtracting decimal numbers.
