

Spring Term 2 2026

Class 4 Home Learning

There are 3 areas of homework to complete each week:

1. **Reading:** Read for **20 minutes at least 3 days every week**. Your **adult needs to record these 3 days in your reading record** and **hand this in every Monday**.
When you read, think about what you have read, collect examples of rich vocabulary and discuss your book with an adult regularly. Vary the authors, genres and text types you select and strive to read from the Reading Rocket selection often.
 2. **Maths:** Practise your times tables on **Times Tables Rock Stars** at home at least 3 times each week.
 3. Choose either an **English or a maths activity** to complete in your homework book and hand this in on **Monday**. Try to choose from each section over the half-term. Books will be returned on Thursdays.
- Trying your very best, being organised with homework and meeting these expectations will result in Dojo points and, of course, you will be learning, practising key skills and becoming an independent learner. If any of the 3 homework expectations are not fully complete, the consequence will be to complete the missing work during golden time on Friday afternoon.

English Activities:

- Write a 1st person setting description of the picture above. Describe the setting using lots of high-level adjectives and prepositions. To help it flow, make sure you include fronted adverbials and conjunctions. Example sentence: As I walked along the soft sand, I could feel the sun's rays dance all over my skin.
- Spellings – try to practise your spellings regularly. If you have a sheet with the Y3/4 spellings stuck in your homework book, they will be highlighted to show which spellings to focus on. If not, spellings to focus on will be written in your book every week.
- Research a place to visit in Spain and create a leaflet telling people about it. It could be somewhere you have already been or somewhere you would like to visit e.g. Malaga where Uncle Juan is from in Toro Toro or Madrid and Barcelona. Remember the features of a leaflet: Subheadings, eye catching pictures, short and snappy sentences that encourage people to visit.
- Write a persuasive letter to Year 3 telling them why they should go on the residential trip to Woodrow next year (use a rhetorical question, powerful adjectives, power of 3).

Maths Activities:

- Use short multiplication to find the products.
 53×4 121×3 142×3 162×5 243×4
 322×7 151×8 279×6
Challenge: Create 3 word problems that involve multiplication and will require the written multiplication method to solve them. Try to stick to 2 digit and 3-digit numbers being multiplied by a 1-digit number (like those above).
For example: A lorry driver drives 152 km each day. How far does he drive after 4 days?
- Complete the multiplication word problems sheet.
- Complete an arithmetic test from Mathsbot.com.
- Recap Fractions.
<https://www.weareteachers.com/paper-plate-fractions/> You will need 6 paper plates for this activity. Divide each plate into different fractions Try these: 1 whole, halves, quarters, thirds, sixths, eighths

Use the plates to find out equivalent fractions. E.g. How many quarters in a half?
