

## Summer Term 2 2025- 2026

### Class 5 Home Learning

#### There are 2 areas of homework to complete each week:

1. **Reading:** You should read for 20 minutes on at least 4 days each week. The expectation is that you will record these 4 days, when you have read at home, in your Reading Record and hand this in each Monday. Your Reading Record will be returned back to you on the same day. When you read, think about what you have read, collect examples of rich vocabulary and discuss your book with an adult regularly. Vary the authors, genres and text types you select and strive to read from the Reading Rocket selection often. Also, remember to keep your activity passport, which is in the back of your reading record, up to date.
2. You need to choose either an **English or a maths activity** from the lists below to complete in your homework book and hand this in on Monday. Try to choose from each section over the term. Books will be returned to you by Thursday.

#### There is one optional activity to complete each week (this is very helpful if you cannot yet recall all of your times tables facts quickly):

**Maths:** Log on to **Times Tables Rock Stars** at home 2 - 3 times each week to practise your tables. Trying your very best, being organised with homework and meeting these expectations will result in house points, stickers or certificates and, of course, you will be learning, practising key skills and becoming an independent learner. If the homework expectations are not fully complete, the consequence will be to complete the missing work during a break or lunch time.

#### English Activities:

\*Write a piece of writing about a person who inspires you.

**You may wish to include pictures and photographs, as well as written text. You can handwrite your written account, create a PowerPoint presentation about your chosen person).**

**\*\*This homework can be worked on over a period of 2 weeks\*\***

\*Write an anonymous informal letter to a Year 4 student informing them of what to expect when they come into Upper Key Stage 2 (Year 5 in September 2026).

Remember- write the letter in a chatty style (informal), giving the student the low down on what Year 5 is like.

#### Maths Activities

**Pupils will be learning about the content below throughout the term so please advise your children to pick tasks that we have covered already each week in class. Home learning is to consolidate learning that the whole class has taken part in throughout the term. Extra challenge sheets are available in Maths but these should only be selected if pupils are feeling confident.**

- Complete the multiplying fractions by a whole number sheet to practise your learning from class. Ask your teacher for a sheet.
- Complete the worksheet focusing on prime and composite numbers. Ask your teacher for a sheet.
- **Challenge Sheets:**
  - Multiplying fractions by a whole number
  - Multiplying fractions by a fraction
  - Fraction jigsaw
