

Summer Term 2 2026

Class 6 Home Learning

There are 2 areas of homework to complete each week:

1. **Reading:** You should read for 20 minutes on at least 4 days each week. The expectation is that you will record these 4 days, when you have read at home, in your Reading Record and hand this in each Monday. Your Reading Record will be returned back to you on the same day. When you read, think about what you have read, collect examples of rich vocabulary and discuss your book with an adult regularly. Vary the authors, genres and text types you select and strive to read from the Reading Rocket selection often. Also, remember to keep your activity passport, which is in the back of your reading record, up to date.
2. You need to choose either an **English or a maths activity** from the lists below to complete in your homework book and hand this in on Monday. Try to choose from each section over the term. Remember to present your English work neatly and with joined handwriting. Books will be returned to you by Thursday.

There is one optional activity to complete each week (this is very helpful if you cannot yet recall all of your times tables facts quickly):

1. **Maths:** Log on to **Times Tables Rock Stars** at home 2 - 3 times each week to practise your tables.

Consider using your computing skills for some of this term's homework. Pages, Numbers, Microsoft PowerPoint, Word, Excel, Book Creator, Pic Collage etc. are different ways of presenting your information. You can email them to school. Otherwise, feel free to work in your orange homework book as usual.

English Activities:

- Write a newspaper report about the Ancient Greek Olympic games.
- Create a story board or cartoon strip to show a Greek myth.
- Write a detailed description of a Buggy character.
- Write a reading rocket recommendation; think about how you can make it sound appealing to other readers.

Maths Activities:

- Budgets
Plan a party for 12 people. You need to buy food, drinks, decorations and prizes.
 - a. Research the cost of items you would like to have.
 - b. You have a budget of £250 for the whole event. List what you will buy and the cost of each item clearly.
- Shape
Create a poster which shows the properties of a range of 2D and 3D shapes.
- Statistics
Create a bar chart, line graph or pie chart to present some sporting information. This needs to be neat and clear with headings. You can choose what sporting data to present but here are some ideas:
 - A Premiership team's games won, drawn or lost, so far this season
 - A Women's Super League final points season-on-season
 - The time each member of your family spent exercising last week or month
 - Runs per over, from an international cricket match.
 - Successful first serves or sets won for a tennis player in a tournament
 - In F1, compare team mates over a season (race wins or championship points)
