

Work for Friday

English

This term, we have been reading 'The Crow's Tale' by Naomi Howarth. I have provided two pictures of Crow, one before the storm and one after the storm. Your child should look carefully at each picture and think of **6 adjectives** to describe Crow's feathers in each image.

Extra challenge: Can your child use some of their adjectives to write a descriptive sentence about Crow in each picture?

Possible sentences:

Crow's feathers were _____ and _____.

Crow's _____ feathers _____ in the wind.

Before the storm, Crow's feathers were _____ and _____.

After the storm, Crow's feathers became _____ and _____.

Crow's feathers were as _____ as _____.

Crow proudly displayed his _____ and _____ feathers.

Maths

On Fridays, we usually complete our weekly times tables tests. Children can practise their times tables on TTRS.

Hit the button (<https://www.topmarks.co.uk/maths-games/hit-the-button>) is also a great website where your child can practise number bonds, doubles and halves.

After practising, your child should choose a maths mosaic to complete. They will need to work out each multiplication or division calculation and then use the colour key to identify which colour each square should be. Complete the mosaic to reveal the hidden picture!

Spelling

Practise spelling words correctly by completing the activity sheet, focusing on the spelling rule: take off the 'y' and add an 'i', with words ending in -er and -est.
