

Dear Parents,

I hope you are managing to stay cool and have enjoyed some ice creams or ice lollies. Please see attached the activities that the children may have a go at on Friday 26<sup>th</sup> June.

\*SPAG – Complete ‘Inverted Commas.’ Read each sentence and decide whether the inverted commas (speech marks) have been used correctly. If you think they have been used incorrectly, rewrite the sentence using the inverted commas correctly. The answers can be found on page 2.

\*English – Complete ‘Punctuating Sentences’. On page 1 you have to decide which type of punctuation is missing and how of many each type. On page 2 there will be some answers. On page 3, have a go at editing the piece of text.

\*Maths – Revision Task – Complete ‘Multiply by non-unit fractions’, pages 1 and 2 if you still need more practice. The answers are on page 3.

Task – Complete ‘Multiplying fractions by whole numbers word problems.’ There is a page of word problems and the answers are on the second page.

CHALLENGE – Make up some of your own fraction word problems to challenge someone.

See you on Monday.

Kind regards,

Mrs Morris
