

## Friday

### Phonics:

#### **Keep practicing the sounds and words.**

For the activity today, there are three sheets to choose from.

Pick one sheet and spell the words.

Don't forget what we do in class:

- Say the word in your hands.
- Rub your hands together and then stretch the word.
- Robot arms – sound it out
- Count the sounds on your fingers.

You can either write them or cut them out and build the word.

I will attach the sound mats we use in class to help you.

As an extra challenge, can you write a sentence that includes one of the words?

### Topic work:

**As you were given a choice of activities to do on Wednesday and Thursday, you could choose to do one of those activities that you haven't yet done instead of today's suggested activity:**

Many of you are enjoying playing on our beach and have built some big sandcastles!

Design a flag to put on top of the sandcastle.

You can put anything you want on your flag. Why not include things you like? It could then be an 'All about me' flag!

Keep cool and have a lovely weekend!

We look forward to seeing you on Monday! 😊
